COVID-19 Updates:
Plan of Care and 5055 Information

*This guidance is based on our knowledge to date and the GRHNN will be updating this information frequently. Please understand that information and guidance is rapidly changing and if you have any questions please contact the GRHNN directly at 585 350 1400 or grhnhnintake@flpps.org*

NYS will be providing guidance on signature for Plan of Care and the 5055 Consent.

5055 DOH will accept an electronic signature. More information and updated 5055 will be sent on the HH listserv.

**Plan of Care:** NYS reported that they will accept an attestation. If the individual responds in an email that they agree with the POC goals this will be acceptable as a signature. Please add the email to the document section in NTST.

**SDOH referrals:** DOH reported that if you are making a referral for a community resource that you should coordinate the referral and consent(s) should not be a barrier. Again, DOH reiterated that these are unprecedent times and we need ensure that vulnerable populations receive the care they need.

OMH will be providing guidance on AOT shortly. More to come

**FLPPS Resources**

**Effective Monday, 3/16/20 at noon, we transitioned to a remote workplace.**  This decision was made after careful consideration of the current facts and recommendations as laid out by the Monroe County Executive and Department of Health Commissioner, including the closing of Monroe County public schools.

We are currently adapting our work practices to accommodate this transition. Our plan is to continue our work and convert live meetings to virtual meetings. We will continue to communicate each update as the situation develops. Please also check [https://flpps.org/Partner-Resources/For-Partners](https://flpps.org/Partner-Resources/For-Partners) for information and updates. Thank you for your patience as we work through each step of our community coordination.
United Way Resource link
United Way and Rochester Area Community Foundation have partnered on a centralized funding pool to rapidly deploy flexible resources to nonprofits that are disproportionately impacted by the COVID-19 (coronavirus) pandemic, the economic consequences of the outbreak, community and organizational recovery, and future community emergencies.
